## PROFESSIONAL PROFILE

---

Full-Stack Java Engineer with 7+ years of experience designing, developing and maintaining enterprise web applications. Proficient in Spring Boot, Spring Security, React and SQL Server, with strong command of Agile methodologies. Committed to delivering robust, scalable software solutions aligned with business needs. Open to remote and nearshore opportunities .

## PROFESSIONAL EXPERIENCE

---

### Full-Stack Java Engineer — OFPPT — Casablanca

*May 2021 – Present*

- Design, development and deployment of enterprise business applications, from data model to user interface.
- Development of REST APIs with Java 17 and Spring Boot, secured via Spring Security and JWT (authentication and authorization).
- Development of web interfaces with React and integration with back-end services; real-time notifications with WebSocket.
- Close collaboration with business teams to gather and analyze requirements, then translate them into technical solutions.
- Containerization and deployment of applications with Docker; implementation of development best practices (code review, testing, continuous integration).

### Java EE Developer — Grupo Avalon — Tétouan

*March 2020 – April 2021*

- Development of the school records management application ("Titulos") with Java/JEE, Spring MVC, Spring Data, Hibernate and AngularJS.
- Management of the PostgreSQL database and query optimization to improve performance.
- Generation of dynamic reports with Jasper Report; source control management via SVN and quality analysis with SonarQube.

### Software Engineer — Fractalité — Casablanca

*February 2018 – March 2020*

- Design and development of web applications in a Java/JEE environment.
- Development of a Rooming List management algorithm with JavaScript, AngularJS, pdfMake and Bootstrap.
- Design and development of the AtlasVoyages website and its mobile adaptation with AngularJS, Bootstrap, Node.js and MongoDB.

### Developer Intern — Architeo — Rabat

*July 2017 – September 2017*

- Built an online appointment booking platform with Java, Bootstrap and MySQL.
